

FOR IMMEDIATE RELEASE

**CDN MAVERICK REPORTS ON SUCCESSFUL INVESTMENT IN NORAM:  
 NORAM DOUBLES DRILL EFFORTS ON ZEUS PROPERTY  
 AND LOOKS FORWARD TO PENDING RESULTS**

*Vancouver, British Columbia – December 3, 2020 – CDN Maverick Capital Corp. (“Maverick” or the “Company”) (CSE: CDN; OTC/PINK: US; Frankfurt: A117RU) is updating shareholders on its interest in Noram Ventures Inc. (“Noram”) (TSX - Venture: NRM / Frankfurt: N7R / OTCQB: NRVTF) who are pleased to announce that the Company has resumed drilling after the US Thanksgiving holiday with two drills and two crews. The LF-70 rig is completing CVZ-62 and the second crew has started CVZ-63 (Site A as previously announced in news release titled [“Noram Receives Permits for Zeus Fall Phase V Drill Campaign and Commences Drilling”](#) dated November 10, 2020) with a Longyear 44. The Company intends to complete all 12 holes this month. Additionally, the Company has been in contact with the Bureau of Land Management and is anticipating the expansion of the permit to include all 12 holes in very short order.*

Upon completion of CVZ-61 (with one of the longest lithium claystone intervals to date – see release dated [November 17, 2020](#) titled [“Noram Drills One of the Thickest Claystone Intersections to Date in Previously Undrilled Area”](#)), the Company immediately sent samples to ALS Labs located in Reno, Nevada for processing on a rush basis due to favourable visual inspections of the core. An overview of the stratigraphy and the corresponding core photos is exhibited below.

Figure 1 - Stratigraphy and core photos for drill hole CVZ-61. This drill hole has 91 meters of lithium claystone in units of variable color. All of the claystone units except the brown silty claystone have relatively high lithium concentrations in previous drill holes on the property.

“Noram is exceptionally pleased with Phase V to date, the immense support of the market and our loyal shareholder base. We passionately believe in the value of the Zeus Project and have gone to exceptional lengths to protect this asset from unlawful actions and succeed despite challenging conditions. Management does not take fees or salaries and we have contributed the bulk of the funding since the maiden resource was first discovered. The focus of which is to minimize dilution and maximize share value. With the next significant milestones fully funded, we will aggressively move forward as a major player in Clayton Valley and in the future of lithium claystone extraction” stated Anita Algie, CFO and Director.

The technical information contained in this news release has been reviewed and approved by Brad Peek., M.Sc., CPG, who is a Qualified Person with respect to Noram’s Clayton Valley Lithium Project as defined under National Instrument 43-101.
